Local Emergency Management Program: Program Standards Workbook (MSP/EMHSD Pub 206 of 2011)

An updated version is now available of Pub 206, titled "Local Emergency Management Program: Program Standards Workbook." The updated workbook supersedes EMD Pub 206 (1998) and Pub 206a (1999), as a consolidated document.

Purpose

The updated workbook is intended to assist local or inter-jurisdictional emergency management programs with measuring its status in relation to 64 acceptable Emergency Management Standards established by the Emergency Management Accreditation Program (EMAP). The workbook provides a means for strategic improvement of emergency management programs striving to attain a standard of excellence and seeking to achieve EMAP accreditation.

Each of the 64 standards identified in the workbook exists because it is relevant to either state or federal authority, and/or because it is necessary to achieve EMAP accreditation.

Available Online

The new version of the workbook is available on the MSP/EMHSD website at www.michigan.gov/emhsd, under "Emergency Management and Homeland Security Publications", then "Planning." The workbook is available in both PDF and a Word document.

Contact Information

For information pertaining to the development and use of the workbook, please contact Mr. Jim Reardon of the MSP/EMHSD at (517) 333-5017 or at reardonj@michigan.gov.
